Dhurbaraj Singh

Kathmandu, Nepal | +977-9848923375 | dhurbarajsinghthakuri@gmail.com
linkedin.com/in/durbaraj | github.com/devotedhruv

Technical Skills

Languages: Python, C++, C, JavaScript, TypeScript, SQL, PHP
AI & Machine Learning: PyTorch, TensorFlow, scikit-learn, Hugging Face, OpenCV, YOLOv8, LangChain, Pandas, NumPy
Computer Vision & OCR: Tesseract, EasyOCR, PaddleOCR, ByteTrack, Posture & Landmark Estimation
Web & Databases: FastAPI, React, Django, PostgreSQL, MySQL, MongoDB, Supabase, Tailwind CSS
Tools & Cloud: Docker, Git, GitHub Actions (CI/CD), Linux, AWS, Postman, VS Code

Work Experience

FlyRank AI Jul 2026 – Present
Machine Learning Intern *Remote*
- Engineered 3+ ML pipelines in Python using Pandas and NumPy for preprocessing, feature engineering, and cross-validation.
- Boosted validation accuracy by 10% via Bayesian hyperparameter tuning and model optimization in PyTorch and TensorFlow.
- Integrated multi-engine OCR workflows (Tesseract, PaddleOCR, EasyOCR) and evaluated prompt pipelines with LangChain.
- Containerized ML services using Docker to streamline testing, deployment cycles, and inference latency.

Glocal Pvt. Ltd. May 2026 – Sep 2026
Outreach & Program Coordinator *Lalitpur, Nepal*
- Coordinated tech outreach campaigns across 32+ institutions, driving engagement and registrations for 500+ participants.
- Standardized reporting and documentation for 32+ programs, reducing report turnaround time by 30%.

Technical Projects

AI Exercise Trainer & Fitness Tracking System | *Python, OpenCV, PyTorch, SQL, Linux*
- Built a real-time CV fitness trainer detecting human posture across 10+ exercise types with 90%+ accuracy.
- Implemented repetition counting and pose angle feedback via spatial landmark coordinates for automated movement analysis.
- Designed an SQL schema tracking workout history across 100+ recorded sessions and tuned inference latency on Linux.

AI Cyber Threat Detection & SOC Platform | *FastAPI, React, Python, PostgreSQL, Docker*
- Developed an event analysis platform processing 1,000+ security logs for real-time anomaly detection and SOC monitoring.
- Integrated IOC/CVE correlation rules, improving threat identification speed by 25% and cutting incident response time.

AI Road Traffic Monitoring System | *Python, YOLOv8, ByteTrack, OpenCV, SQLite, Tkinter*
- Created a multi-object vehicle tracking pipeline tracking 500+ vehicles simultaneously with 90%+ detection accuracy.
- Engineered automated speed estimation, overspeed alerts, OCR plate recognition, and a live Tkinter analytics UI.

Leadership & Community Experience

Hult Prize at Mid-West University Aug 2026 – Present
Campus Director *Kathmandu, Nepal*
- Directed the campus startup incubation program, coordinating 10+ student founder teams through product ideation.
- Organized 5+ entrepreneurship bootcamps and university pitch competitions engaging 100+ students and mentors.

Nepalese Society of Student Researchers (NSSR) Jan 2026 – Present
College Representative & IT Volunteer *Kathmandu, Nepal*
- Supported IT operations and digital platforms for NSSR's research repository and proceedings archive.
- Spearheaded campus research outreach, connecting undergraduate students with national academic mentors in AI/ML.

AWS Student Builder Group at Mid-West University Jan 2026 – Present
Core Team Member *Kathmandu, Nepal*
- Facilitated 5+ technical workshops, introducing 100+ engineering students to core AWS services and cloud computing.

AIDA Hackathon 2026 2026
Campus Ambassador *Kathmandu, Nepal*
- Mobilized student developers at Mid-West University for Nepal's premier AI & Accessibility Hackathon.

TechAxis Jun 2026 – Present
Student Partner *Kathmandu, Nepal*
- Facilitated hands-on developer workshops, hackathons, and technical peer-learning cohorts for 100+ attendees.

Education

Mid-West University Kathmandu, Nepal
Bachelor of Computer Engineering (CGPA: 3.6 / 4.0) *Expected 2027*

Fellowships, Honors & Certifications

Fellowships: **Code for Nepal Data Fellow** (1-yr DataCamp Award) | **NSSR Data Fellow 2026** (6-mo DataCamp Award)
Honors & Hackathons: Top 30% Finalist – OpenAI × NamasteDev Codex Hackathon | Nepal Startup Hackathon
Certifications: **Data Scientist** & **Associate** (DataCamp) | **AI/ML Bootcamp** | **Cybersecurity & Ethical Hacking** (ZenG Labs)
